Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove the license plate from the vehicle. Place the insert in the bumper opening.	
3	Center the billet grille into the opening of the factory grille shell. Secure the bolt to the threaded holes on the front of the grille. Be sure the bolts are through the OEM grille shell.	
4	Make sure the billet is centered. Note the two tabs on both ends of the insert and mark the holes. Remove the insert and drill a 1/16" hole at each mark. Install a screw from the front and fasten a flat nut from the rear.	
5	Make sure the billet grille is centered and tighten the fasteners. But do not over-tighten.	
6	Reinstall the license plate which was removed in step 2.	
7	Installation completed!!!	N/A

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
