		2	U-Clip Nuts	3	10#						
Install Notes: Overlay × Replacement √				Drill × Cut ×							
Step	Description					illustration					
1	Identify the grille & hardware with parts list.										
2	Optional (for vehicles with black plastic cover under hood). Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.										
3	Remove headlight bezels and factory grill from truck retaining all screws and hardware. Remove turn signal lamps from factory grille.										
4	Cut tabs off of turn signal lamps and install lamps on billet grille as shown in illustration. Secure bottom of lamp to bottom of grille with a small sheet metal screw or pop rivet.							grille			
5	grill the	e shell. front o	Secure the bolt	to the th	ing of the factory nreaded holes on polts are through	remove tabs signal lamp sheet metal screw					
6	Inst	Install clip nut on each of the three tabs across the top of the grille.									
7	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.										
8	Rei	Reinstall the black plastic cover which was removed in step 2.									
9	Inst	Installation completed!!!									
Notes: On 1981-82 GMC Trucks, the bottom grille attachment is different from 1983-87. On a 1981-82 truck, the billet grille must have											

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.

a hole on each end of the bottom tab drilled to match the bottom outside tab mounting location.

Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
