Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Pop Hood, remove plastic shroud at the top and set fasteners aside.	
3	Optional: Using factory instructions, remove the entire front grille shell.	
4	Position the billet grille onto grille shell cavity.	
5	Loosely attach the grille by holding the Metal Brackets behind factory grille shell and inserting the phillips screws (from the front) through the grille holes and metal brackets, secure them with Flange Nuts provided.	
6	Once the grilles are loosely attached, center them and tighten all screws at the same rate.	
7	Reinstall the plastic shroud with the fasteners removed in Step 2.	
8	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation.
