Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Thread studs into the grille using a slotted screwdriver. Then push the studs through the grid of the shell and center the grille into the opening. Fasten the grille use the tabs and the k-lock nuts from the rear, but do not over-tighten.	
3	Make sure the grille is centered.	
4	Installation completed.	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
