Secure billet grille using the nuts from the back side of the OEM grille shell.

Reinstall the black plastic cover which was removed in step 2.

Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
