Install Notes: Overlay Replacement Drill Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove core support cover and screws from top of grille shell. Release 4 spring clips at bottom of grille using flat blade screw driver.(Fig 1)	
3	Place grille on protective work surface such as a work bench with a blanket. Then tape off the chrome portion of the grille with masking tape so you don't scratch the face of the grille shell. Notice that there is a molded line in the shell about 1/8" inside the chrome as shown.(Fig 2)	
4	Cut out the grey plastic center of the grille shell being careful to follow the small grey molded line described in step 3. After cutting the center out use a file to smooth out the edges. Again being careful to follow the grey molded line. (Fig 3)
