Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell.	
3	Install the supplied clips onto the supplied brackets, aligning the hole in the clip with the hole in the bracket. The flat smooth side of the clip should be on the black side of the bracket.	
4	Center the billet insert over the opening grille shell.	
5	Secure it with the supplied screws going through the front of the grille and tighten them into the brackets. Do not over tighten the screws.	  
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
