Step	Description							illustration					
1	Identify the grille & hardware with parts list.												
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.												
	Secure the stud to the threaded holes on the rear of the grille.												
4	Center the grille into the opening of the factory grille shell. Be sure the studs are through the OEM grille shell.												
5	Secure grille using the tabs and lock nuts and washers from the back side of the OEM grille shell.								Washer and Lock Nut     Tab 1   Washer and Lock Nut				
6	Make	e sure	the grille i	s cente	ered and	tighte	en the faste	eners.					
7	Reinstall the black plastic cover which was removed in step 2.												
8	Installation completed!!!												
T	The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to												

adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
