Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional: pop hood, remove the black plastic cover (on top of OEM grille) from vehicle. If you are still unable to access the rear, remove the grille shell according to factory manual.	
3	Insert the screws into the weld tab hole from front side of the billet grille.	
4	Center the billet grille onto the OEM grille. Press & insert the toggle nuts on to the rear of the OEM grille through the gap.	
5	Make sure the billet grille is centered and tighten the fasteners.	
6	Reinstall the black plastic cover which was removed in step 2.	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
