| 1                                    | Identify the grille & hardware with parts list.   |          |          |                                   |             |        |  |              |  |                   | 68             | 99  |             |  |  |
| 2                                    | Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. |          |          |                                   |             |        |  |              |  |                   |                |     |             |  |  |
| 3                                    | Identify grille No# as shown. The grille No# can be found on the side or back side of each grille.  |          |          |                                   |             |        |  |              | Left Face To Vehicle Right   1 2 3 4 5 6 7   Grille No# Identify |                   |                |     |             |  |  |
| 4                                    | Remove the OEM grille shell from vehicle. Be sure there are enough room to work from grille shell back.   |          |          |                                   |             |        |  |              |  |                   |                |     |             |  |  |
| 5                                    | Slide the U-Nuts over the brackets provided.  |          |          |                                   |             |        |  |              |  |                   |                |     |             |  |  |
| 6                                    | Center the billet grille on the opening of the grille shell, Insert screw into the mounting tabs on the billet grille from front side.              |          |          |                                   |             |        |  |              |  |                   |                |     |             |  |  |
| 7                                    | scre  | ews, U-l |          | to the OEM<br>, and U – cl<br>ı). |             |        |  |              |  |                   |                |     |             |  |  |
| 8                                    | Make sure the billet grille is centered and tighten the fasteners.but do not over-tighten.  |          |          |                                   |             |        |  | N/A          |  |                   |                |     |             |  |  |
| 9                                    | Re-install the OEM grille shell onto the vehicle.   |          |          |                                   |             |        |  | N/A          |  |                   |                |     |             |  |  |
| 10                                   | Installation completed!!!   |          |          |                                   |             |        | N/A  | N/A          |  |                   |                |     |             |  |  |

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation.

We are not responsible for any damage caused by the installation. Thank you for choosing our product!
