	Item	Part Name	QTY	Description	Item	Part Name	QTY	Description
<b>Parts List</b>	1	Billet Grille	1	Stainless steel	3	Screws	4	#8×3"
	2	U-Nuts	4	8#	4	' J' Hooks	4	1.5"

**Install Notes:** Overlay  Replacement  Drill  Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.	
3	From the front, insert a screw into each of the tabs welded to the rear of the billet insert. Slide a U-nut onto each 'J' hook and let the hole straight. From the back of the billet, thread a 'J' hook / U-nut assembly onto each screw. Center the billet in the opening. Make sure the 'J' hooks wrap around the plastic in the openings. Use a Phillips screwdriver to tighten screws.	
4	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.	
5	Reinstall the black plastic cover which was removed in step 2.	
6	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
