	1	Billet Grille	1	Aluminum	3	Truss Head Screws	4	6-32 × 2"
2	U-Clip Nuts	4	6#	4	Powder Coated Brackets	4		

Install Notes: Overlay Replacement Drill Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell.	
3	Remove the factory grille to gain access to the rear of the bumper, use a small screwdriver to pull the center from each fastener. Use your fingers to depress the two molded clips along the bottom and one in each center. The grille can now be removed.	
4	Slide the U-Nuts over the brackets provided. Insert a screw into the mounting tabs on the billet insert. Center the billet insert over the bumper opening. From the rear, fasten the brackets to hold the billet in place.	
5	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.	
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
