Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.	
3	Hold the grille against the OEM grille shell, center and mark holes for drilling. Remove grille and drill holes according to your mark.	
4	Secure the grille using the flat tab and U-nut from the back side of the OEM grille shell.	 <p style="text-align: center;">Mark and drill 4 holes</p> 
5	Make sure the grille is centered and tighten the fasteners, but do not over tighten.	
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
