-------	------------------	-------------	--

Parts List	Item	Part Name	QTY	Description	Item	Part Name	QTY	Description
	1	Billet Grille	1	Aluminum	3	Screws	2	#8 × 1"
	2	J Hooks	2	1.5"	4	U-Clip	8	#8

Install Notes: Overlay Replacement Drill Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.	
3	Hold the billet insert up to the opening of the factory shell, and make sure that it is centered in the grille shell.	
4	Slide the u-nuts over the hole in J hook brackets. These brackets secure the grille to the plastic crossbars in the bumper opening. Center the billet into the opening. The grille has two tabs welded to the back. From the front, insert a screw into each tab. From the back; slide a J hook on each screw; secure the brackets with the lock nuts provided. Use the screws to attach the u-nut side of the bracket. Wrap the hook around the horizontal crossbars in the opening.	
5	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.	
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
