Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove the plastic bumper shroud (at the bottom of the front bumper) from the vehicle. This will allow to access to the rear of the bumper opening.	
3	Secure the thread studs into the welded nuts on the rear of the mesh grille insert.	
4	Centre the mesh grille insert into the bumper opening.	
4	Fasten the grille onto the bumper opening with the J hooks, washers & lock nuts.	 <i>NOTE: This picture is for reference only, it shown how to use J hook.</i>
5	Re-install the plastic bumper shroud which was removed in step 2	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
