Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Secure the studs in the threaded nuts on the rear on the billet grille insert.	
3	Remove the black trim panel (at the bottom of OEM front bumper) from vehicle. This will allow access to the rear of the grille shell.	N/A
4	If present, remove the license plate.	
5	Center the billet grille from front side, make sure the studs are through the OEM grille.	N/A
6	Fasten the billet grille insert on to the OEM grille with washers, flat tabs & K-lock nuts on the back side of the OEM grille.	N/A
7	Re-install the trim panel which was removed in step 3. And re-install the license plate.	N/A
8	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
