-------	------------------	-------------	--

Parts List	Item	Part Name	QTY	Description	Item	Part Name	QTY	Description
	1	Billet Grille	1	Aluminum	3	Cross Head Tapping Screws	4	8#X3/4"
	2	U-Clip Nuts	4	8#				

Install Notes: Overlay Replacement Drill Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell.	
3	Remove the OEM factory grille shell and center the billet insert in the opening. The top mounting tabs should align with factory mounting holes (it may be necessary to slightly bend the brackets). Hold the billet insert firmly in place. Make sure it is centered. Mark the holes in the lower mounting tabs to the opening. Remove the billet insert and drill a hole at each mark.	
4	Re-center the insert in the opening and use our screws and "U" clip nuts to fasten the mounting top and lower tabs.	
5	Make sure the billet grille is centered and tighten the fasteners, but do not over-tighten.	
6	Reinstall the black plastic cover which was removed in step 2.	
7	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
