Step	Description					illustration			
1	Identify the grille & hardware with parts list.								
2	of C	DEM gri	lle / front pan	lack plastic cove el) from vehicle. of the grille she	This will	Remove OEM Grille			
3				over the openin to the factory gr		Mark & Drill holes onto the OEM grille according to the weld tab holes position of billet grille. And then, secure the billet grille on the OEM grille with the screws.			
4	Drill a 1/8" hole at each mark. Re position the billet insert over the opening. Use the #8 screws to secure the billet insert to the opening.								
5	Make sure the billet grille is centered and tighten the fasteners. But do not over-tighten.								
6	Reinstall the black plastic cover which was removed in step 2.								
7	Installation completed!!!								
The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result.									

Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
