| Step   |  | Description |     |           |                 |             | illustration                        |      |     |           |             |
| 1  | Identify the grille & hardware with parts list.                                      |             |     |           |                 |             |                                     |      |     |           |             |
| 2  | Align & Center Billet Grille into opening. Then mark home locating on vertical bars. |             |     |           |                 |             |                                     |      |     |           |             |
| 3  | Drill a 3/32 hole in the marked locations .  |             |     |           |                 |             | N/A                                 |      |     |           |             |
| 4  | Insert the #8 screws through the holes you drilled.                                  |             |     |           |                 |             | N/A                                 |      |     |           |             |
| 5  | Re-Align Billet Grille and thread with provided flat nuts.                           |             |     |           |                 |             | N/A                                 |      |     |           |             |
| 6  | Installation completed!!!  |             |     |           |                 |             | N/A                                 |      |     |           |             |

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
