

PN: GR20GFE81T

**05~07 Lexus GX470 – Upper Class Mesh Grille – Polished Stainless Steel
Main Grille (will not Fit Vehicles with Factory Pre Crash System)**

Hardware

4-- 6-32×2" Studs

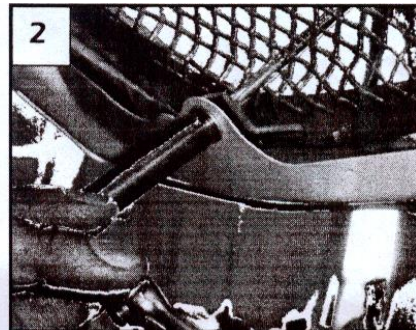

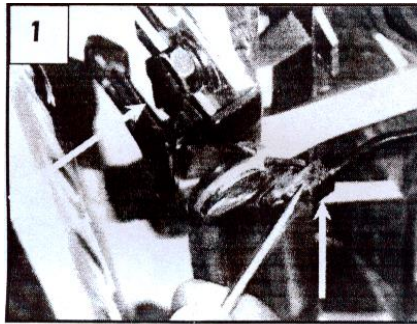

10 -- 6-32 Kep Nuts

2-- 6-32×3/4" Phillips Screws

10 -- Washers

NOTE: Instruction for billet grille also applies to stainless steel grille.

- (1) Remove the nuts holding the grille in place. Remove the clip securing the hood pull rod to the latch. Remove the two factory bolts holding the hood latch (1); separate the grille center from the outer grille shell.
- (2) Test fit the mesh grille into the factory grille shell. Thread a stud in each nut welded to the grille. Make sure that the studs and brackets match up to factory holes on grille shell; set grille into place. From underside of hood; place a #10 washer and nut on each stud. DO NOT TIGHTEN. Place a #8 screw between grille and bottom brackets. Put a washer and a nut on each (2). Center the grille and tighten.

- (3) Reinstall the hood latch and rod using step 1.

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
