Step	Description	illustration
1	Identify the grille & hardware with parts list.	

FOR CENTER BILLET GRILLE:

2	Remove grilles from the box.	
3	Place screws through the welded aluminum tabs on the grille, and attach a toggle nut on the end of each bolt.	<div style="display: flex; align-items: center;"> <div style="border: 1px solid black; padding: 5px; margin-right: 10px;"> Picture for reference only. This is not actual grille. </div>  <div style="margin-left: 10px;"> <div style="border: 1px solid black; padding: 2px; margin-bottom: 5px;">Weld tab</div> <div style="border: 1px solid black; padding: 2px; margin-bottom: 5px;">Screw</div> <div style="border: 1px solid black; padding: 2px;">Toggle nut</div> </div> </div>
4	Center the billet grille onto the OEM grille. Press & insert the toggle nuts on to the rear of the OEM grille through the gap between the horizontal bars.	
5	Secure the grille using the toggle nuts and screws from the front side of the billet grille with a screw driver.	
6	Make sure the billet grille is centered and tighten the fasteners.	

FOR SIDE BILLET GRILLES:

7	Now thread studs into the grille. Then push the studs through the shell and center the grille into the opening. Fasten the grille use the washers and the k-lock nuts from the rear, but do not over-tighten.
8	Make sure the billet grille is centered and tighten the fasteners.
9	Installation completed!!!

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
