Install Notes: Overlay  Replacement  Drill  Cut

Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Optional (for vehicles with black plastic cover under hood), Pop hood, remove the black plastic cover (on top of OEM grille / front panel) from vehicle. This will allow access to the rear of the grille shell. If you are still unable to access the rear, remove the grille shell and reattach after installation.	
3	Remove the grille shell from your vehicle, unless you have enough room to work from the back of grille shell.	
4	Remove the plastic package and take out the new billet grille, test it fit a way for grille shell.	
5	Place the billet grille into the opening grille shell, it overlay factory grille shell honey comb, center it.	
6	Take the screw and push it into billet grille weld tab hole, through honey comb then place the clip nut from back of grille shell.	
7	When all the screws be screwed, adjust billet grille center, you tight each screw. Repeat this step for other billet grille.	
8	Reinstall the black plastic cover which was removed in step 2.	
9	Installation completed!!!	

The instruction here is for your reference only. You may need to bend the billet grille bars or tabs a little bit to adjust to fit. We strongly recommend the professional installer for best result. Please use masking tape and tape the OEM grille shell along the edge to protect your vehicle during installation. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
