Step	Description	illustration
1	Identify the grille & hardware with parts list.	
2	Remove the grille shell from your vehicle, unless you have enough room to work from the back of grille shell.	
3	Test fit billet grille in OEM grille shell and center.	
4	Thread a screw into billet grille weld tab hole. Push through honey comb. Place the clip nut from back of grille shell to tighten.	
5	Tighten all screws and center the billet grille. Repeat this step for other billet grille.	
6	Installation completed.	

The instruction here is for your reference only. You may need to bend the grille a little bit to adjust to fit. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation. Thank you for choosing our product!
