

Magnus®

Hitch Step

This product contains the following items: (1) Hitch Step, (1) Lock Pin, and (1) Anti-rattle Stabilizer

Hitch Step

X1

Lock Pin

X1

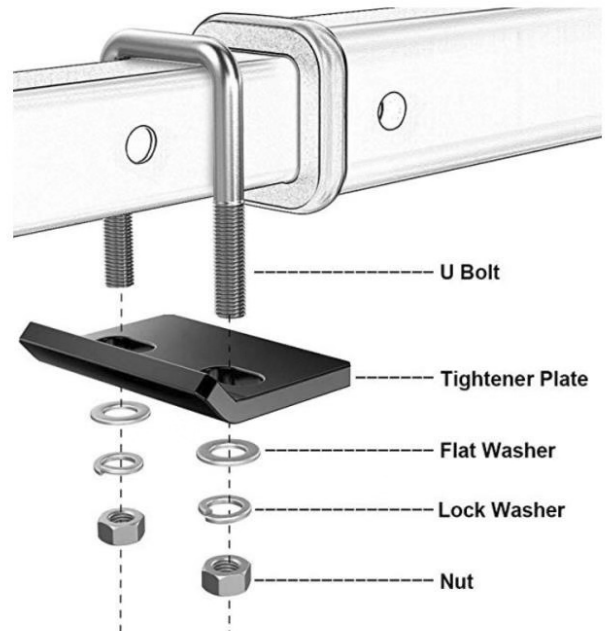

Anti-rattle Stabilizer

X1

INSTALLATION:

1. To start the installation, insert selected (1) **Hitch Step** into the existing hitch receiver on your vehicle, adjust the depth it goes into the hitch receiver and align either round through hole on the hitch step with those on the hitch receiver.
2. Use (1) **Lock Pin** to secure the Hitch Step in position via the through holes, make sure it's locked and keep the keys safely.
3. To avoid any play and rattling noise, install (1) **Anti-rattle Stabilizer** as demonstrated in the figure on the right.

Attention

In order to protect your hitch step, please use only mild soap/non-abrasive products for cleaning.
