The instruction here is for your reference only. We strongly recommend the professional installer for best result. We are not responsible for any damage caused by the installation.

STEP 1

Starting at the driver side-front of the vehicle, locate the two large factory holes in the floor panel by the front tires, **(Fig 1)**. Insert (1) M10x40 Bolt Plate into each of the factory holes, **(Fig 2)**.

IMPORTANT: Once you have inserted the Bolt Plates, make sure that the welded washer on each Bolt Plate is in the center of the factory hole.
