Start installation from the Passenger Side of the vehicle. Identify the mounting locations along the inner side of the rocker panel, remove any tape on the inside of rocker panel that covers the mounting holes, **(Fig 1)**.

Attach the passenger side mounting brackets to underside of the rocker panel as shown on **Fig 1**. Do not fully tighten hardware at this time.

STEP 2

Once all (3) Passenger side mounting brackets are installed, then proceed to the Step Bar installation. **(Figs 2 & 3)**
