### Step Bar Assembly:

- Select and assemble (2) Step Bars with (2) M8X1.25-25mm Inner Hex Bolts, (4) M8 Flat Washers, (2) M8 Lock Washers and (2) M8 Hex Nuts, (Fig 1). NOTE: (4) Step Bars are universal.
- Attach (1) Back Plate to the bottom of the installed (2) Step Bars with (4) M8X1.25-25mm Inner Hex Bolts, (4) M8 Flat Washers, (4) M8 Lock Washers, (Fig 2).
- 3. Install (1) Plastic Cover to cover the joint of (2) Step bars with (4) Plastic Rivets, **(Fig 3).**
- 4. Repeat to assemble the other (2) Step Bars.

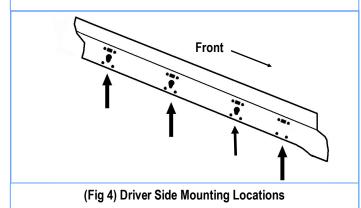

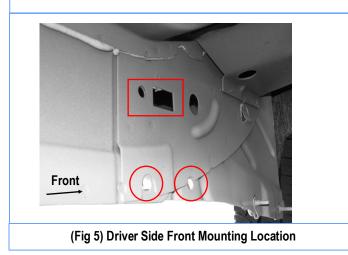

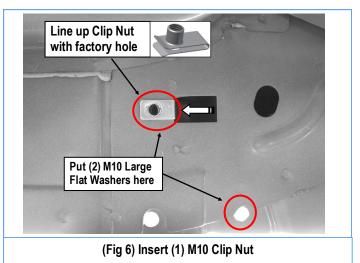

Starting on the driver side front of the vehicle, locate the (4) pairs of factory holes in the pinch weld under the rocker panel, **(Fig 1). NOTE:** Mounting locations may be covered with tape or undercoating. Remove tape and/or undercoating as necessary to ensure that Brackets are attached directly to the body panels.

# **STEP 3**

Move to the driver side front mounting location, (Fig 5). Locate (1) small round hole and (1) rectangular in the body panel and (2) holes in the pinch weld, (Fig 5). Insert (1) M10 Clip Nut into the rectangular opening and line up the threaded hole in the Clip with the round hole next to the opening. NOTE: Threaded nut must go towards the inside of the body panel.

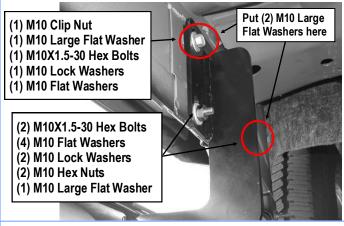

# **STEP 4**

Select (1) Mounting Bracket. Insert (1) M10X1.5-30 Hex Bolt, (1) M10 Lock Washer and (1) M10 Flat Washers through the top hole of Mounting Bracket, (1) M10 Large Flat Washer into the Clip Nut. Do not fully tighten hardware at this time.

Bolt the bottom of the Bracket to the pinch weld with the (2) M10X1.5-30 Hex Bolts, (2) M10 Lock Washers, (4) M10 Flat Washers and (2) M10 Hex Nuts, (Figs 7 & 8). NOTE: Insert Hex Bolts in from the outside, through the pinch weld and then the Bracket.

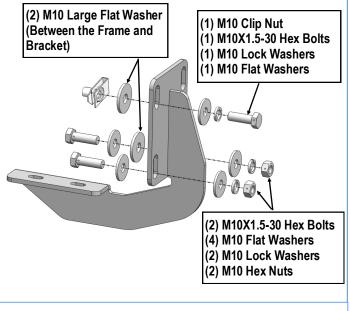

Put the other M10 Large Flat Washer against the pinch weld, (Figs 6 & 7).

(Fig 7) Driver Side Front Mounting Bracket Installed

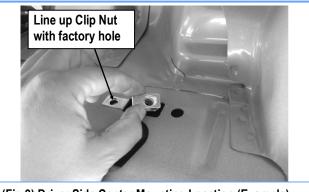

(Fig 8) Driver Side Front Mounting Bracket Installation

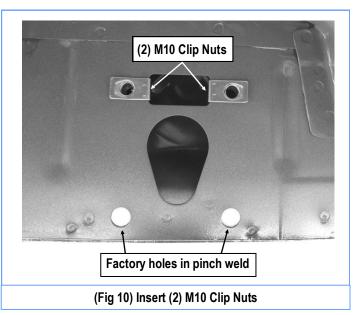

Move to the driver side center mounting location. Repeat **Step 3** to install (1) M10 Clip Nut, **(Figs 9-10)**.

Attach (1) Mounting Bracket to the installed M10 Clip Nut with (1) M10X1.5-30 Hex Bolt, (1) M10 Lock Washer and (1) M10 Flat Washer; to the pinch weld with (1) M10X1.5-30 Hex Bolt, (1) M10 Lock Washer, (2) M10 Flat Washers and (1) M10 Hex Nut. Do not fully tighten hardware at this time. Repeat this step for the other center mounting Brackets.

**Note:** Front Mounting Bracket and Center Mounting Brackets are universal.

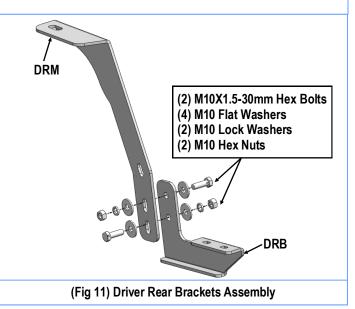

(Fig 9) Driver Side Center Mounting Location (Example)

# **STEP 6**

Assemble (1) Driver Rear Mounting Bracket (**DRM**) and (1) Driver Rear Bar Bracket (**DRB**) with (2) M10X1.5-30mm Hex Bolts, (2) M10 Lock Washers, (4) M10 Flat Washers and (2) M10 Hex Nuts, (**Fig 11**). Do not fully tighten hardware at this time.

Select the correct procedure for installing the assembled Driver Rear Bracket under the bed:

### 1999-2010 Driver side Rear Bracket assembly:

- a. Locate the square reinforcing tube welded to the bottom of the bed above and in front of the rear tire. Select (1) M12 Bolt/M10 Nut Plate. Hold the Bolt/Nut Plate upside-down against the bottom of the tube with the M12 Bolt inserted into the oval hole, (Fig 12). Mark the location of the Nut onto the bottom of the tube. Drill the location with a 7/16" Drill Bit.
- b. Insert the Bolt/Nut Plate into the tube with the M12 Bolt out through the factory hole, (Fig 12). Line up the M10 Nut with the drilled hole in the tube.
- c. Select the assembled Driver Rear Bracket, (Fig 11). Attach the Bracket to the M12 Bolt on the Bolt/Nut Plate with (1) M12 Flat Washer, (1) M12 Lock Washer and (1) M12 Hex Nut, (Fig 13). Do not fully tighten hardware at this time.
- d. Select the Driver Rear Support Bracket (DRS) <u>1999-2010</u>. Bolt the Bracket to the bottom of the tube and the M10 Nut on the Bolt/Nut Plate with (1) M10X1.5-30mm Hex Bolt, (1) M10 Lock Washer and (1) M10 Flat Washer, (Figs 13 & 14). Attach the lower end of the Support Bracket to the front side of the Mounting Bracket with (1) M10X1.5-30mm Hex Bolt, (2) M10 Flat Washers, (1) M10 Lock Washer and (1) M10 Hex Nut, (Fig 13). Do not fully tighten hardware at this time.

#### 1999-2016 Passenger side Rear Bracket assembly:

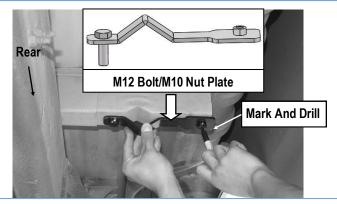

Repeat the previous <u>1999-2010</u> driver side procedure (**Steps 7a—d**) for 1999-2016 passenger side rear bed bracket installation. Once completed, skip to **Step 8**.

#### 2011-2016 Driver side only rear Bracket assembly:

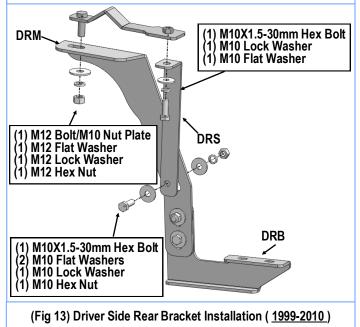

- a. Release the plastic vent tube from the factory bracket, (Fig 15). Remove the plastic bracket from the square tube welded to the bottom of the bed. Insert the M12 Bolt Plate into the end of the tube and out the factory hole in the bottom, (Fig 16). Reinstall the plastic bracket and vent tube, (Fig 17).
- b. Select the assembled Driver Rear Bracket, (Fig 11). At-

tach the Bracket to the M12 Bolt on the Bolt Plate with (1) M12 Flat Washer, (1) M12 Lock Washer and (1) M12 Hex Nut, (**Figs 18).** Do not fully tighten hardware at this time.

c. Select the Driver Rear Support Bracket 1 (DRS1) <u>2011-2016</u>. Attach the 90-deg bent end of the Support Bracket to the hole in the top of the leaf spring bracket with (1) M12X1.75-35mm Hex Bolt, (2) M12 Flat Washers, (1) M12 Lock Washer and (1) M12 Hex Nut, (Fig 18 & 19). Bolt the flat end of the Bracket to the Driver Rear Mounting Bracket with (1) M10X1.5-30mm Hex Bolt, (2) M10 Flat Washers, (1) M10 Lock Washer and (1) M10 Hex Nut, (Fig 18). Do not fully tighten hardware at this time.

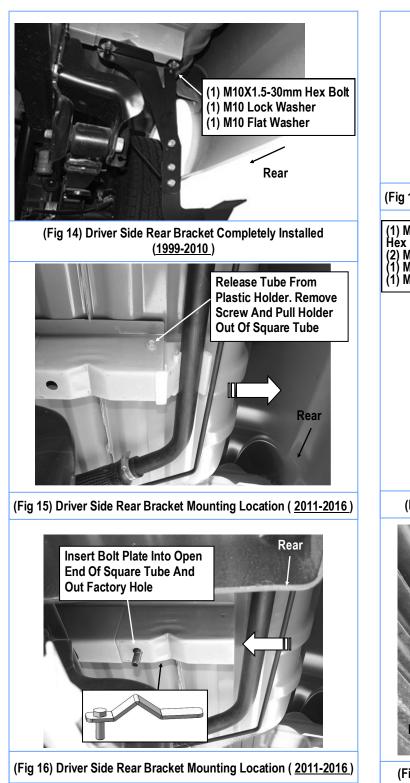

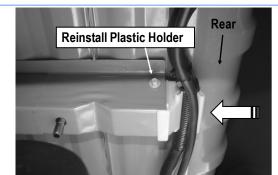

(Fig 12) Driver Side Rear Bracket Mounting Location ( 1999-2010)

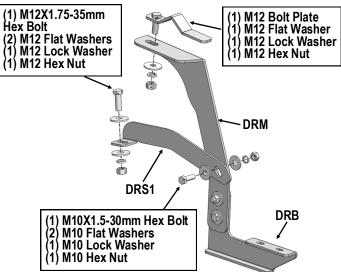

(Fig 17) Driver Side Rear Bracket Mounting Location (2011-2016)

(Fig 18) Driver Side Rear Bracket Installation (2011-2016)

(Fig 19) Driver Side Rear Bracket Completely Installed (2011-2016)

Once all (4) Driver side mounting brackets are installed, then proceed to the Step Bar installation. (Figs 20 & 21)

- (1) Select (1) Slider and (2) M8X1.25-35mm Carriage Bolts;
- (2) Install (2) M8X1.25-35mm Carriage Bolts in (1) Slider.
- (3) Slide the Slider (with carriage bolts) to the Step Bar.
- (4) Repeat to install the other (3) sliders to the step bar.

(5) Attach the Step Bar (with the Sliders) onto the installed mounting brackets. Position the Sliders to the installed brackets. Secure the Step Bar to the installed Brackets by using (8) M8 Large Flat Washers and (8) M8 Nylon Lock Nuts and (4) Sliders, (**Fig 21**). Do not fully tighten hardware at this time.

Note: The Sliders are packed with the Step Bars.

Level and adjust the Step Bar and fully tighten all hardware.

Repeat **Steps 1-8** for the other side Step Bar installation. **The installation is completed!!!** 

### Attention

Do periodic inspections to the installation to make sure that all hardware is secure and tight.

In order to protect your bars/boards, please use mild soap/non-abrasive products for cleaning only.
