1. Start the installation under the Passenger/Right side of the vehicle. Locate the front factory mounting location along the inner side of the body, **(Figure 1)**. Use a wire brush or thread chaser die to remove excess paint and/or undercoating from all studs.
2. Slide (1) Plastic Washer over each of the (3) factory mounting studs in the body panel, **(Figures 2 & 3)**. **IMPORTANT:** The Plastic Washers are designed to prevent corrosion between the aluminum body panel and the steel mounting brackets. **Do not install the Brackets without the Plastic Washers.**
